**Savannah Accelerated Development Authority (SADA), Ghana Signs Crucial
Memorandum of Understanding with Alpha Energy and Electric, Inc., (Alpha Energy),
USA on June 8, 2015 at The Flagstaff, Accra, Ghana**

Alpha Energy and Electric, Inc., an up and coming energy and electric company in the United States and one of twenty American companies selected to participate in the Energy Business Development Trade Mission to West Africa led by Secretary Penny Pritzker. Alpha Energy and Electric, Inc., was invited by the United States President to join the U.S. – Africa Leaders’ Summit in Washington, D.C. in August, 2014.

Alpha Energy and Electric, Inc., signs a Memorandum of Understanding “MOU” with SADA at The Flagstaff House, The Presidency, Republic of Ghana, Accra, Ghana. The signing of this MOU represent a culmination of efforts between Alpha Energy and SADA to collaborate in the fulfilment of SADA’s main Vision -“A transformed Northern Savannah Ecological Zone(NSEZ);to a place of opportunity and free from poverty”.

The major objective of the MOU is the collaboration of SADA and Alpha Energy in developing, designing, financing, constructing and operating power generation plants with overall production capacity of up to 250MW within the next 5 Years in SADA region.

About Us: Alpha Energy and Electric, Inc. is a solution-based energy provider, engineering and construction company with over a half century of experience. We deliver turnkey power generation solutions, providing comprehensive Engineering, Procurement and Construction (EPC) services. Our EPC strategies focus on speed and efficiency, employing both pre-engineered packages and built-to-suit solutions and a full inventory of equipment including turbine and generators, transformers, and compressors. Our extensive services go well beyond the traditional design and build; from start-up and commissioning to operations and maintenance, we will manage service and optimize power plant’s assets throughout the entire lifecycle. We are very keen on “helping in powering the economy”, providing our clients with uncompromising level of excellence with integrity from planning to implementation. Our corporate office is located in Kansas City, Missouri, USA.
