

Alpha Energy and Electric, Inc. Awarded Collaborative Contract for Aladdin Hotel

Alpha Energy and Electric, Inc. Awarded Collaborative Contract for Aladdin Hotel

Alpha Energy and Electric, Inc. has been awarded a collaborative contract to install electrical systems at the Aladdin Hotel, Downtown Kansas City, MO on October 19, 2006. The 193-room, 16-story tower's Aladdin Hotel now affiliated with Holiday Inn in Downtown, Kansas City, MO has undergone more than a year of remodeling as a specialty boutique hotel. Its exterior and cozy lobby have been restored to the Roaring '20s look it sported when it opened in 1925. Alpha Energy and Electric, Inc. is proud to be a part of this laudable project.
